Meet Rachel Raccoon, an urban dweller who wants to get back to her wild roots.

Young students will learn about the needs of plants and animals through creative storytelling, imaginative play and interacting with educational props. Discover how our personal actions contribute to healthy ecosystems.

Curriculum Connections

Our Living Planet directly relates to the grade K-1 science curricula. Below, you'll find some big ideas and curricular competencies that will be addressed.

You may contact us for a more detailed list for your grade if you please.

Big Ideas:

Kindergarten

- Plants and animals have observable features
- Daily and seasonal changes affect all living things

Grade 1

- Living things have features and behaviours that help them survive in their environment

Curricular Competencies:

Kindergarten to Grade 1

- Demonstrate curiosity about the natural world
- Observe objects and events in familiar contexts
- Consider some environmental consequences of their actions

Essential Teacher Information

Payment

Payment is due a minimum of two weeks prior to your program date. Please make cheques out to the Stanley Park Ecology Society and mark them with your invoice number, school name and program date. A \$25 fee will be charged for all cheques returned NSF.

Cancellation Policy

Our programs are popular and space is limited. Where a cancellation is made less than two weeks in advance, the Stanley Park Ecology Society may retain the full program fee.

Getting Ready for *Our Living Planet*

To do before the program:

- Advise office staff that our educators will arrive within half an hour of the program start time
- Send payment a minimum of two weeks prior to your program

Please ensure your classroom has:

- Enough open space to teach two groups at the same time. One of these spaces must be large enough to fit a 2.5 m x 2.0 m tent.
